

FIFTH ANNUAL
"GUY" LAWSON MEMORIAL
**STREET SMART ENGINE
COMPANY OPERATIONS**
OCTOBER 10TH AND 11TH, 2015

This class is a "HANDS ON" class that will take your basic fire skills to the next level whether you are a Rookie or the Fire Chief. Come learn what they fail to teach you in the manuals. A great mix of Street proven techniques and skills that will make you better at the main goal of Engine Company operations on the fire ground; "Getting water on the fire as fast and effectively as possible."

Our instructors will teach you skills and techniques learned on the job through experience that have been proven on the fire ground. The items that will be covered in the class are:

- Stretching and advancing attack lines
- Estimating stretches
- Working with the "dreaded" 2 1/2 inch hose line
- Apartment loads and leader lines
- Overcoming obstacles: Stretching short, extra-long stretches, loss of water
- Standpipes and High rise operations
- Riding positions and Company teamwork

Registration Fee is \$75.00, this will cover class materials as well as your lunch and light snacks for both training days. Unspent funds will be donated to IAFF Local 68 Scholarship fund. Registration fees are non-refundable. Students are expected to attend both days and must bring structural firefighting gear and SCBA with a spare bottle. For additional information contact Capt. Rich Graulich

Richard.graulich@norfolk.gov or Lt. Jeremy Williams at Jeremy.Williams@norfolk.gov
